Ventrapragada Baby Sravani

Hyderabad, Telangana, India sravaniventra@gmail.com 9298203774 in/sravani-ventrapragada-63090b316 github.com/Sravaniventra

SUMMARY

3rd-year IT student with experience in Machine Learning and full-stack development. Built and deployed projects, including a price tracking platform handling over 10,000 records and a fingerprint recognition system with 97% accuracy. Skilled in Java and Python.

PROJECT

Price Lens - Comparison & Alert System

- Built a full-stack price tracking platform monitoring products across **4+ e-commerce websites.**
- Developed web scrapers and stored **10,000+ price records** in SQLite for historical analysis.
- Created interactive dashboards using Streamlit and Altair for price trend visualization.
- Implemented automated email alerts, **reducing manual price checks by 80%.**
- **Tech Stack:** Python, Streamlit, SQLite, Pandas, Altair, SMTP.

TouchLess Trace - Fingerprint Recognition System

- Built a sensor-free fingerprint verification system using CNN and OpenCV.
- Processed **6,000+ fingerprint images** with preprocessing techniques like grayscale conversion, thresholding, and noise filtering.
- Designed a custom feature extraction and matching algorithm achieving **97% verification accuracy.**
- Deployed the model using Flask API for real-time authentication.
- **Tech Stack:** Python, Flask, OpenCV, NumPy.

Restaurant Insights and Recommendation System

- Analyzed **10,000+ restaurant records** to train and evaluate machine learning models for rating prediction.
- Built a content based recommendation system that generated **personalized top-5 suggestions** for users.
- Classified **15+ cuisines** using Random Forest and evaluated performance with confusion matrices.
- Performed city-wise trend analysis to identify customer preferences and restaurant demand patterns.
- **Tech Stack:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn.

SKILLS

- **Languages:** Java, Python, C
- **Machine Learning & Data Science:** Scikit-learn, Pandas, NumPy, TensorFlow, Keras, Feature Engineering, Model Evaluation
- **Web & Full Stack:** React, Node.js, Express.js, REST APIs, Streamlit, Flask
- **Databases:** MySQL, SQLite, MongoDB
- **Core Concepts:** Operating Systems, DBMS, OOP, CN
- **Tools:** Git, VS Code, Tableau, Power BI

EDUCATION

Bachelor of Technology in Information Technology

Gokaraju Rangaraju Institute of Engineering and Technology • Hyderabad, Telangana • 2027 • 8.68

Intermediate Majoring in Mathematics, Physics and Chemistry

Sri Chaitanya Junior College • Hyderabad, Telangana • 2023 • 9.61

School

St. Francis Girls High School • Secunderabad, Telangana • 2021 • 9.8

CERTIFICATIONS

Oracle Certified Gen AI Professional

Oracle • 2025

Career Essentials in Generative AI by Microsoft and LinkedIn

LinkedIn Learning • 2025
