

# Ventrapragada Baby Sravani

📍 Hyderabad, Telangana, India ✉ sravaniventra@gmail.com ☎ 9298203774 📺 in/sravani-ventrapragada-63090b316 🌐 github.com/Sravaniventra

## SUMMARY

Information Technology undergraduate with a strong foundation in Java, Python, Data Structures & Algorithms and Software Engineering. Skilled in developing AI-powered applications using Machine Learning and Computer Vision, with knowledge of Generative AI and Large Language Models. Passionate about building scalable, cloud-native solutions and continuously learning emerging AI technologies.

## EDUCATION

### Bachelor of Technology in Information Technology

Gokaraju Rangaraju Institute of Engineering and Technology • Hyderabad, Telangana • 2027 • 8.81 CGPA

### Intermediate in Mathematics, Physics, Chemistry

Sri Chaitanya Junior College • 2023 • 96.1 Percentage

### High School

St Francis Girls High School • 2021 • 9.8 GPA

## SKILLS

**Programming Languages:** Java, Python, JavaScript

**Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, Software Engineering, Basic System Design

**Artificial Intelligence & Machine Learning:** Machine Learning, Generative AI, Large Language Models (LLMs), Prompt Engineering, TensorFlow, Scikit-learn, Pandas, NumPy, Computer Vision, NLP

**Web & Backend Technologies:** Flask, REST APIs, HTML, CSS

**Databases:** MySQL, SQLite

**Tools:** Git, GitHub, VS Code

## PROJECTS

### AI-powered API Rate Limiting and Traffic Monitoring System

[github.com/Sravaniventra/Smart-API-Limiter-and-ML-based-Anomaly-Detection](https://github.com/Sravaniventra/Smart-API-Limiter-and-ML-based-Anomaly-Detection)

- Developed an **AI-powered API rate limiting system** handling **100+ concurrent requests** with improved reliability.
- Implemented an Isolation Forest model achieving **95% anomaly detection accuracy on API traffic logs**.
- Built real-time monitoring dashboards, **reducing traffic analysis time by 40%**.
- **Improved request management** through scalable backend design and performance optimization.

### Touchless Trace - Fingerprint Recognition System

[github.com/Sravaniventra/contactless-fingerprint-recognition](https://github.com/Sravaniventra/contactless-fingerprint-recognition)

- Developed a **CNN-based fingerprint recognition system** achieving **97% verification accuracy**.
- Processed and extracted features from 6,000+ fingerprint images, **optimizing the preprocessing and inference pipeline** for secure authentication.
- Integrated the trained model with a **Flask-based backend** to enable **secure and efficient fingerprint authentication**.

## CERTIFICATIONS

### Data Science Concepts

Cisco • 2026

### Oracle Certified Gen AI Professional

Oracle • 2025

## INVOLVEMENT

### Assistant Manager

GRIET Advanced Academic Center (AAC)

- Coordinated 3 junior teams in delivering Artificial Intelligence and Machine Learning projects, providing guidance in project development, evaluation and problem-solving.
- Planned and executed technical workshops, ideathons, and project expos, strengthening cross team collaboration, engagement and innovation.
