Ventrapragada Baby Sravani

Hyderabad, Telangana, India sravaniventra@gmail.com 9298203774 in/sravani-ventrapragada-63090b316 github.com/Sravaniventra

SUMMARY

Motivated 3rd-year IT student with solid programming proficiency in Java and Python, and practical experience building ML models end-to-end. Known for structured problem solving, quick learning, and adaptability. Looking to bring technical skills and creativity to innovative projects in AI, ML, and software development.

PROJECT

Restaurant Insights and Recommendation System

- Built ML models to predict restaurant ratings, improving data driven decision making.
- Developed a content-based recommendation system generating personalized **top-5 restaurant suggestions**.
- Classified **15+ cuisines** with Random Forest, enhancing insights through confusion matrix visualization.
- Conducted location based analysis across **top 10 cities**, uncovering trends for strategic business insights.
- **Tech Stack:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn.

Price Lens - Comparison & Alert System

- Built a price tracking platform monitoring **100+** products across **4+ e-commerce sites**, enabling smarter purchase decisions.
- Designed and deployed custom web scrapers with a SQLite backend to collect and maintain a daily price history dataset of **10,000+** records.
- Integrated Altair visualizations for interactive trend analysis, helping users identify best buy periods.
- Developed and optimized a real-time email notification system, reducing manual price checks by **80%** and improving user engagement.
- **Tech Stack:** Python, Streamlit, SQLite, Pandas, Altair, SMTP.

TouchLess Trace

November 2025 - November 2025

- Developed a sensor-free fingerprint recognition model using CNNs, OpenCV, and image processing, eliminating the need for physical sensors.
- Designed a preprocessing pipeline (grayscale, thresholding, filtering) to extract minutiae points and ridge features from **6,000+** real time fingerprint images.
- Implemented a custom matching algorithm, achieving **97% accuracy** in fingerprint verification across test samples.
- **Tech Stack:** Python, Flask, OpenCV, NumPy.

EDUCATION

Bachelor of Technology in Information Technology

Gokaraju Rangaraju Institute of Engineering and Technology • Hyderabad, Telangana • 2027 • 8.68

Intermediate Majoring in Mathematics, Physics and Chemistry

Sri Chaitanya Junior College • Hyderabad, Telangana • 2023 • 9.61

School

St. Francis Girls High School • Secunderabad, Telangana • 2021 • 9.8

SKILLS

- **Programming Languages:** C, Java, Python
- **Core CS Concepts:** Data Structures & Algorithms, OOP, DBMS, OS, CN, TCP/IP, SE
- **Data Science & AI:** Machine Learning (Supervised & Unsupervised), NLP, Generative AI (LLMs, Prompt Engineering), Feature Engineering, Model Evaluation & Optimization
- **ML Libraries & Tools:** Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, TensorFlow, Keras, Streamlit
- **Visualization Tools:** Tableau, Power BI
- **Development Tools:** Git, VS Code
- **Databases:** MySQL
- **Full-Stack Web Development:** HTML, CSS, JavaScript, React, Node.js, Express.js, REST APIs, MongoDB
- **Soft Skills:** Problem Solving, Communication, Teamwork, Time Management, Adaptability, Leadership
- **Languages Known:** English, Telugu, Hindi

CERTIFICATIONS

Oracle Certified Gen AI Professional

Oracle • 2025

Career Essentials in Generative AI by Microsoft and LinkedIn
LinkedIn Learning • 2025

Data Science for Engineers
NPTEL-Skill India • 2025

INVOLVEMENT

Assistant Manager
GRIET • Advanced Academic center • August 2024 - Present
- Assisted mentees with machine learning projects by supporting tasks such as data preprocessing, model implementation, and result evaluation.
- Led database operations and collaborated with a team to organize technical events for the club at GRIET, impacting 150+ student participants.
- Handled logistics, venue setup, and data tracking for club events, ensuring 100% on time execution and accurate documentation of participation.
